

IMAGINE IF...

**YOUR DRIVETRAIN
LASTED 3.5X LONGER**

New Motion Labs presents

**ENDUO™
CARGO**

**BECAUSE PERFORMANCE
SHOULDN'T COST THE EARTH.**

**LASTING
15,000 –
30,000 KM**

IMAGINE MORE...

- ✓ Cost savings for your fleet – €500 a year, per bike!
- ✓ Time on the road – cut workshop downtime and breakdowns
- ✓ Carrying Cargo up to 450kg
- ✓ Sustainability, durability, reliability – for every bike, every day

Enduo™ Cargo's gamechanging drivetrain is suitable for cargo and e-bikes with 250-watt motors.

Enduo revolutionary sprocket technology is exclusively developed and patented by New Motion Labs®.

COMPATIBLE WITH E-BIKES AND CARGO BIKES

LASTS 15-30,000 KM

Dual Engagement maximises chain lifetime with it's revolutionary Enduo™ tooth design.

STRONGER

Enduo™ Cargo is the worlds most durable drivetrain. Designed to withstand higher loads and tough conditions.

MAINTENANCE

Highest precision for minimal maintenance.

HUGE COST SAVINGS

Total cost of ownership dramatically reduced.

RUST-FREE

A Zinc-Aluminium coating for all weather conditions.

NATURAL RIDE

Enduo™ sprockets and chainrings are compatible with an industrial single speed chain which enables a smoother riding experience.
